PART XVI PRODUCTION AND DELIVERY ALLOCATIONS – GENERAL

1. The purposes of the Delivery and Production Allocation Procedures contained in Part XVII and Part XVIII are to identify the principles and guidelines by which the Commission will support and enhance a regulated marketing system for the intraprovincial, interprovincial and export trade of regulated crops. These purposes include:
 - (a) The preservation of market access for Producers who have served the market over time.
 - (b) The provision of access for new entrants.
 - (c) The desire to create and maintain long-term, sustainable, food safe, farming and greenhouse operations.
 - (d) The provision of opportunity for industry growth.
 - (e) The provision of an orderly marketing system.
2. In the event a Producer or any other Person realizes a benefit or advantage in regard to the application of the Procedures contained in Part XVII and Part XVIII, or the utilization of or access to Delivery or Production Allocations, that are not consistent with the object and purpose of these Procedures, the Commission may deny such Producer or Person that benefit or advantage and may interpret these Procedures in a manner consistent with the object and purpose of the policy as articulated in section 1 of this Part.
3. Delivery and Production Allocations are a privilege granted by the Commission under a Producer's license. Delivery and Production Allocations shall have no monetary value.
4. Only Persons eighteen (18) years of age and over and holding a valid Producer's licence from the Commission may hold or be assigned Delivery or Production Allocations.

If the applicant for a Delivery or Production Allocation is a corporate applicant, then 51% common beneficial ownership must be retained by a Person or Persons holding Canadian citizenship or Permanent Resident

Status.

6. A change of name on a registration or a Delivery or Production Allocation does not necessarily constitute a transfer of a Delivery or Production Allocation.
7. A change of name on a registration of a Delivery or Production Allocation does not negate any Grower Marketing Agreement between a Producer and an Agency.
8. Throughout the Regulated Area Delivery and Production Allocation is transferable between and among licensed producers and prospective producers intending to obtain a producer license. For the purpose of reaching decisions and determinations regarding the transfer of Production and Delivery Allocation the VMC will rely on what is provided for in Part XVII of this General Order as well as policies established regarding Production and Delivery Allocation transfer, which may change from time to time.
9. Designated Agencies having the authority to market storage crops are to use each individual producer's assigned Delivery Allocation for the purpose of determining the Producer's delivery opportunity in accordance with the established Delivery Allocation period.

PART XVII PROCEDURE FOR DETERMINING DELIVERY ALLOCATION FOR STORAGE CROPS

1. This Part covers Storage Crops as defined in Part I (5), *as follows*:

“Storage Crops” mean potatoes, onions, parsnips, cabbage, carrots, beets, rutabagas, white turnips and any other crop designated by the Commission.
2. *Only Regulated Product shipped through an Agency or Producer-Shipper of the Commission shall be used for the calculation of Delivery Allocation levels or adjustments for Crops under this Part.*
3. Delivery Allocations shall be established on a rolling 5-year average for Storage Crops, unless otherwise directed by the Commission.
4. Subject to section 5 and 6 in this Part, no Producer shall ship a quantity of Storage Crops in excess of their Delivery Allocation, unless otherwise authorized by the Commission.
5. Delivery Allocation within a period does not commence until supply exceeds demand. Any shipments made within a Delivery Allocation period prior to commencement of Delivery Allocation will count towards the building of Delivery Allocation.
6. After one round (100 percent) of all Delivery Allocations has been shipped for any Storage Crop in any Delivery Allocation period, Delivery Allocations shall be awarded equally to each registered producer. For the purposes of this section registered Producers operating as a Family Unit may be grouped together and in those instances the Family Unit will receive the Delivery Allocation of only one registered Producer.

7. Where a Producer is called to provide Regulated Product and cannot or will not supply the Regulated Product demanded by the market, that Producer will be bypassed and will be deemed to have shipped the quantity of Regulated Product requested, and other Producers will be contacted. Producers holding a Delivery Allocation will be contacted first and new Producers will be contacted if Producers holding a Delivery Allocation cannot supply the Regulated Products requested.
8. Regulated Product produced outside of British Columbia shall not be used to fill or increase a Delivery Allocation for a Producer.
9. Regulated Product produced by one Producer may not be used to fill or increase a Delivery Allocation of another Producer.
10. Unless there are special circumstances, if a Producer ceases production for two consecutive years, then the Commission shall rescind their Delivery Allocation.
11. If a Producer is found guilty of violating a Commission Order, the Commission shall have the authority, in addition to any other measures set out in these orders, to suspend a Producer's Delivery Allocation for a period of time. Sales made during the period of violation will not be allowed to build Delivery Allocation.

Transfer of Delivery Allocations

12. Except in extenuating circumstances, transfer of a Delivery Allocation by any Producer can only take place once a year and is subject to the following conditions:
 - (a) all applications for transfer of a Delivery Allocation must be on a form prescribed by the Commission;

5. Manifest Sales shall not be made to Brokers, Wholesalers, Processors, Producers, Producer-Shippers, Commission Salespersons or to any other Persons prohibited by the Commission, as may be stipulated by the Commission.

 - (b) the collection of all amounts owing from their own manifest sales; and
 - (c) packaging materials; Regulated Product shall not be sold in Agency packaging materials without the prior approval of the Agency.

 12. The Agency shall also be responsible for collecting all fees approved by the Commission and any other assessment that may occur from time to time (e.g., promotion, research, or anti-dumping levies).
 13. All sales transactions completed under this Part may only be made within the Province.
 14. Reported sales, for Storage Crops only, will qualify to build Delivery Allocation provided sales invoices are documented properly and processed through an Agency, regardless of whether the Producer is actually able to collect monies from the sale.
 15. A Producer must have a confirmed sale prior to delivery and must have his manifest sale invoices completed with all the required information set out in Section 8 of this Part.
